

Ilias brings authentic Greek food to the table. The simple, yet appetizing menu is a compilation of traditional Greek recipes and dishes. It's more like his culinary philosophy, once someone asked him if he ever regretted not learning different kind of cuisines or if he would like to cook different kind of cuisines, his answer was "I am specialized in the cuisine that I grew up with, the cuisine that I am eating and tasting for the last 30 years, I have made my name out of this cuisine and I prefer to be authentic than trying to be authentic."

Mythos echoes the details of a modern taverna - a classy upgrade to the traditional charm, without losing its fun spirit, warmth and vibrancy - it is reinvented for today.
